Nama : Abdillah Aziz Putra Susan

Nim : E41241208

Golongan : C

Get worker dengan jenisnya interval

Code :

1. Main.dart

```dart
import 'package:flutter/material.dart';
import 'package:get/get.dart';
import 'app/modules/home/home_page.dart';

Run | Debug | Profile
void main() {
  runApp(MyApp());
}

class MyApp extends StatelessWidget {
  @override
  Widget build(BuildContext context) {
    return GetMaterialApp(
      debugShowCheckedModeBanner: false,
      home: HomePage(),
    ); // GetMaterialApp
  }
}
```

2. Home_page.dart

```dart
import 'package:flutter/material.dart';
import 'package:get/get.dart';
import 'home_controller.dart';

class HomePage extends StatelessWidget {    Constructors for public
  final HomeController controller = Get.put(HomeController());

@override
  Widget build(BuildContext context) {
    return Scaffold(
      appBar: AppBar(
        title: Text("GetX Counter"),
      ), // AppBar
      body: Center(
        child: Obx(() => Text(
            "Count: ${controller.count}",
            style: TextStyle(fontSize: 28),
          )), // Text // Obx
      ), // Center
      floatingActionButton: Row(
        mainAxisAlignment: MainAxisAlignment.end,
        children: [
          FloatingActionButton(
            onPressed: controller.decrement,
            child: Icon(Icons.remove),
          ), // FloatingActionButton
          SizedBox(width: 10),
          FloatingActionButton(
            onPressed: controller.increment,
            child: Icon(Icons.add),
          ), // FloatingActionButton
        ],
      ), // Row
    ); // Scaffold
  }
}
```

3. Home_controller.dart

```dart
import 'package:get/get.dart';

class HomeController extends GetxController {
  var count = 0.obs;

  late Worker _worker;

  @override
  void onInit() {
    super.onInit();

    _worker = interval(
      count,
      (value) {
        print("Interval terpanggil: $value");
      },
      time: Duration(seconds: 3),
    );
  }

  void increment() {
    count++;
  }

  void decrement() {
    count--;
  }

  @override
  void onClose() {
    _worker.dispose();
    super.onClose();
  }
}
```
